

National Clean Energy Week in Idaho

WHEREAS, Ammon, Idaho is proud to support a clean energy future by utilizing readily abundant forms of diverse energy resources that are powering homes, businesses, and schools across our community; and

WHEREAS, Eastern Idaho plays an outsized role in nuclear energy production and is home to the Idaho National Laboratory, which is crucial in the development of atomic technology across the United States; and

WHEREAS, across Idaho, clean and readily abundant forms of energy are powering more homes and businesses across Idaho than ever before; and

WHEREAS, Idaho is a national leader in clean energy, with our rivers supplying half of our net electricity generation, the eighth largest state producer of hydropower in 2021; and

WHEREAS, Idaho is rich in renewable energy sources, with its volcanic formations providing one of the best geothermal potential in the nation, and Idaho is one of seven states with geothermal power capacity; and

WHEREAS, the clean energy sector is a growing part of the economy and has been a key driver of economic growth in Idaho in recent years, supplying nearly 13,000 jobs to Idahoans; and

WHEREAS, National Clean Energy Week provides an opportunity for individuals, local governments, corporations, and other organizations in Ammon and across the state to work together to assert American energy leadership and dominance in the global marketplace, and provide access to low-cost reliable energy here at home;

Now therefore I, Sean Coletti, do hereby proclaim *September 26 – September 30, 2022*

National Clean Energy Week in the City of Ammon

AND urge all citizens to recognize this observance.

Sean Coletti, Mayor

ATTEST:

Kristina Buchan, City Clerk
