

Proclamation

Whereas, Across Texas, clean and abundant forms of energy are powering more homes and businesses than ever before thanks to renewable sources such as wind, solar, hydro, geothermal, as well as nuclear, natural gas, and carbon capture technologies; and

Whereas, Texas is the leading crude oil and natural gas producing state in the nation, and also ranks first in wind-powered electricity generation; and

Whereas, The clean energy sector is a key driver of economic growth in Missouri City, with scores of new jobs being added to the industry every year that cannot be outsourced due to the on-site nature of construction, installation, and maintenance; and

Whereas, Missouri City must harness the power of Texas entrepreneurs and small businesses and ensure government collaboration to assert American energy leadership and dominance in the global marketplace to ensure low-cost renewable and reliable energy; and

Whereas, National Clean Energy Week provides the chance to lift up common sense solutions that will curb climate change while simultaneously preserve the beauty of Texas natural resources.

Now, therefore, I, Robin J. Elackatt, Mayor of Missouri City, do hereby proclaim September 25-29, 2023 to be Clean Energy Week.

IN WITNESS WHEREOF,

I have hereunto set my hand and caused this seal to be affixed.

September 25, 2023
