NATIONAL CLEAN ENERGY WEEK

#NCEW26 | SEPTEMBER 14-18, 2026
WASHINGTON, D.C. & VIRTUAL

National Clean Energy Week (NCEW), described by POLITICO as “**a veritable who’s who of the Clean Energy World,**” is an annual awareness week to recognize the value of clean energy including abundant job opportunities, economic growth, energy independence, consumer choice, lower energy prices and a cleaner environment.

Join the week-long **celebration of clean energy innovation** and be part of the conversation on how we can harness all of our resources, including nuclear, solar, wind, wave, hydrogen, hydropower, geothermal, natural gas and biomass, along with technology solutions such as carbon capture, storage and waste-to-energy, to solve the world’s most pressing challenges!

National Clean Energy Week draws **a nationwide audience** and brings together appointed and elected officials, business leaders, advocates, policymakers, investors and trade associations representing a broad cross-section of the energy and technology supply chain who are dedicated to advancing clean energy.

The 10th Annual NCEW will take place from September 14-18, 2026, and will include in-person policy engagements, livestreamed content and in-person networking events in Washington, D.C.

Rep. Jen Kiggans (R-Va.)

Rep. Bob Latta (R-Ohio)

Rep. Susie Lee (D-Nev.)

Rep. Scott Peters (D-Calif.)

Rep. Marc Veasey (D-Texas)

Sen. John Curtis (R-Utah)
IN THE WASHINGTON TIMES:

“From renewable sources like wind and solar to groundbreaking advances in battery technology, the United States has been actively reducing its carbon footprint while ensuring energy security.”

NCEW VIP Reception & Dinner

The VIP Reception & Dinner features policymakers and special guests, including 280+ leaders from the business community, state and federal government, and more. Attendees in 2025 included **44** congressional staff and **4** Members of Congress.

The 2025 dinner program featured a bipartisan discussion about permitting reform with House Natural Resources Chairman Bruce Westerman (R-Ark.) and Rep. Jared Golden (D-Maine) moderated by CRES President and CEO Heather Reams. The conversation focused efforts to advance durable policy, including the members' SPEED Act.

Young Professionals Happy Hour

This happy hour provides an opportunity to network with the next generation of advocates for American clean energy, including **200+** young professionals from industry and government.

Sen. Maria Cantwell (D-Wash.)

ON INTRODUCTION OF THE NCEW SENATE RESOLUTION:

“Investing in clean energy and modernizing our nation’s grid will make America’s electricity supplies more secure, abundant and affordable all while creating new jobs. The clean energy investments we make right now will have substantial impacts on our climate, economy, and global competitiveness for generations to come.”

Sen. Mike Crapo (R-Idaho)

IN THE WASHINGTON TIMES:

“To meet sustainability goals and boost the economy, clean energy choices must be affordable and accessible to all. As we continue to grapple with world challenges and increasing energy demands, we must seek out clean energy solutions that preserve American energy independence, strengthen our national security, diversify our energy portfolio and grow the economy.”

NCEW Policymakers Symposium

The Policymakers Symposium is a robust program featuring expert panel discussions and keynote remarks on the latest in climate and energy policy, highlighting leaders in their fields. Attendees will hear directly from top decision-makers in clean energy, including policymakers and top influencers in clean energy investment, innovation and policy.

This year, the Symposium will feature two days of in-person programming in Washington, D.C., with the option to live stream panels and armchair discussions online. This brings together our Washington-based audience and provides access to a nationwide stakeholder community.

List of panel topics to include:

- Clean Energy Tax Credits
- U.S. Competitiveness and Global Leadership
- Ethanol
- Permitting Reform
- Clean Energy Manufacturing
- Innovation
- Artificial Intelligence
- Hydrogen
- Nuclear
- Offshore Wind
- Liquid Fuels
- Critical Mineral Manufacturing
- Grid Reliability

Rep. Bob Latta (R-Ohio)
WASHINGTON REPORTER

“We need significantly more power, at lower costs, and the key is to use every tool and resource available to us. This is more important than ever, and should be a central focus of Washington, especially during this National Clean Energy Week.”

Rep. Lisa Blunt Rochester (D-Del.)
ON INTRODUCTION OF THE NCEW
HOUSE RESOLUTION:

“I’m proud to work with Rep. Miller-Meeks to show that clean energy isn’t a partisan issue and that we can power our homes and economy in a way that helps us fight the climate crisis and reduce greenhouse gas emissions.”
