

STATE of WISCONSIN

OFFICE of the GOVERNOR

Proclamation

WHEREAS; pollution and climate change present a grave threat to the health, safety, and economic well-being of all Wisconsinites, and the state has a responsibility to current and future generations to act and prevent further damage to the climate by investing in sustainable solutions, including the use of clean energy alternatives; and

WHEREAS; with the signing of Executive Order #38 in 2019, the state of Wisconsin established a goal of ensuring all electricity consumed within the state is 100 percent carbon-free by the year 2050, and will achieve this primarily through the utilization of solar, wind, hydro, biomass, and biogas sources, as well as by developing technologies to better support sustainable energy production; and

WHEREAS; Wisconsin is also a proud member of the U.S. Climate Alliance, a coalition of states committed to fulfilling the carbon reduction goals of the 2015 Paris Climate Agreement; and

WHEREAS; in 2022, Wisconsin released its first-ever Clean Energy Plan, which identifies dozens of pathways and strategies aiming to reduce the disproportionate impacts of energy generation and use on low-income communities and communities of color, maximize the creation of and equitable opportunities for clean energy jobs, economic development, and retention of energy investment dollars in Wisconsin, improve the reliability and affordability of the energy system, strengthen the clean energy workforce, and protect human and environmental health, among other goals; and

WHEREAS; in 2023, as recommended in the Clean Energy Plan, Wisconsin also announced a new Green Ribbon Commission on Clean Energy and Environmental Innovation to advise on creating the state's first-ever Green Innovation Fund, which will leverage public and private financing to invest in projects that provide environmental and clean energy solutions to businesses, reduce pollution, lower energy costs for families, and expand access to clean, affordable energy options; and

WHEREAS; in 2026, the state is building on its work by launching new partnerships to explore nuclear energy opportunities in Wisconsin, as well as efforts to purchase renewable energy certificates from Wisconsin utilities and renewable energy projects for the next two decades, continuing the state's long-standing practice of leading by example and ensuring Wisconsinites have access to in-state renewable electricity; and

WHEREAS; the clean energy sector supports tens of thousands of jobs in Wisconsin, and transitioning to clean energy will provide economic prosperity and vitality to communities across the state, especially those that have been disproportionately impacted by climate change, those that lack economic security, and those currently relying on the fossil fuel industry for their livelihoods; and

WHEREAS; this week, the state of Wisconsin encourages increased organizational and individual support of innovative and sustainable solutions that address the state and nation's economic and energy needs to build energy resilience and lower costs for families and joins municipalities and individuals across Wisconsin in working toward the goals of the state's Clean Energy Plan and toward the stronger, more sustainable clean energy future Wisconsinites need, want, and deserve;

NOW, THEREFORE, I, Tony Evers, Governor of the State of Wisconsin,
do hereby proclaim September 14 – 18, 2026, as

NATIONAL CLEAN ENERGY WEEK

throughout the State of Wisconsin, and I commend this observance
to all our state's residents.

IN TESTIMONY WHEREOF, I have
hereunto set my hand and caused the
Great Seal of the State of Wisconsin
to be affixed. Done at the Capitol in
the City of Madison this 18th day
of August 2026.

A handwritten signature in black ink that reads "Tony Evers".
