

Executive Department
State of Idaho

The Office of the Governor Proclamation

State Capital
Boise

WHEREAS, clean and readily abundant forms of energy are powering more homes and businesses across Idaho than ever before. In 2025, renewable energy resources generated about 73% of Idaho's total in-state electricity, including from customer-sited, small-scale solar panel generating systems. The renewable energy share was the fourth highest for any state; and

WHEREAS, Idaho is a national leader in clean energy having hydropower provide nearly half of Idaho's generation in 2025; and

WHEREAS, in 2025, Idaho was one of seven states with utility-scale electricity generation from geothermal energy. Although geothermal energy provides less than 1% of the state's total generation, Idaho's volcanic landscape has some of the best geothermal potential in the nation; and

WHEREAS, the clean energy sector is a growing part of the economy and has been a key driver of economic growth in Idaho in recent years, supplying more than 15,600 jobs to Idahoans in 2025; and

WHEREAS, research and innovation for cleaner technology use is necessary and is made possible in Idaho thanks to such organizations as the Idaho National Laboratory and the Idaho Clean Energy Association, as well as collaborations with local and state partners; and

WHEREAS, as America celebrates National Clean Energy Week, I encourage individuals and organizations in Idaho to support commonsense solutions that address America's economic and energy needs.

NOW, THEREFORE, I, BRAD LITTLE, Governor of the State of Idaho, do hereby proclaim September 14-18, 2026, to be

CLEAN ENERGY WEEK

in Idaho, and I encourage Idaho citizens to recognize this special observance.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at the Capitol in Boise on this 14th day of September in the year of our Lord two thousand and twenty-six.

BRAD LITTLE
GOVERNOR

PHIL MCGRANE
SECRETARY OF STATE
